### City News.

Our thanks are due Messrs. Meredith and King, messengers of Adams's Express Com-pany, for favors rendered.

Bares House, Indianapolis.—We take great pleasure in recommending the above house to merchants and others, sojourning in the Hoosier capital, as the best hotel in the State. It is conducted by Mr. Judson, assisted by Captain Hartwell and Charlie Judson, and we can safely say they render comfortable all who place themselves in their hands.

A Dwelling House Destroyed by Fire.
The dwelling house, an architectural cottage
—of John Joyce, agent of the Cincinnati and
Indianapolis Railroad, was destroyed by fire
on Monday night, in the village of Brookfield, about thirteen miles from the latter
city, involving a loss of \$700, upon which
there was no insurance.

Driving on the Sidewate.—Half a dozen persons were fined, in the Police Court, yesterday morning, by Judge Lowe, for driving on the sidewalk, and half a dozen more spent last night in the Station-house for a similar offense. The authorities are determined to put a stop to the infraction of this ordinance, as the streets are sufficiently wide for the travel upon them, and the fault has become too great to be borne.

mute of West Rupert, Vermont, has invented a new alphabet, which may be made available at any distance within the range of a telescope. In the hope of conducing to the entertainment and instruction of the public, as well as to receive the means of his own subsistence, he has prepared his Charts for wholesale, which may be had by addressing the inventor.

ARREST OF AN ALLEGED HOTHL HORRER.—A man named William F. Fisher was arraigned before Judge Lowe yesterday morning upon a charge of grand larceny. It appears that while stopping at the United States Hotel, he occupied, night before last, the same room with a man named P. F. Kline, who had five double eagles, which he placed in his portemonaie and secreted it under his pillow. Yesterday morning upon examination he found but three, and concluding that he had been robbed by his room-mate, caused his arrest. A couple of \$20 gold pieces were found upon his person by the police, which seemed to make "assurance double sure," and the defendant was committed in default of bail in the sum of \$1,000, to answer the charge at the next term of the Court of Common Pleas.

mon Pleas.

The circumstances of the case render it extremely doubtful whether the man is guilty. He would hardly steal two double eagles from a fellow-lodger when he might have taken five, and then go to sleep to await an arrest.

The mysticism surrounding the transaction will probably never be explained; but the evidence against the defendant will, in our opinion, hardly be sufficient to convict him.

BOARDING.

The Street railroad companies about drepudiate the per capital ax and refuse to pay the sums now due. One of them never was known to be entirely right in any statement, while another, with the staidness and sobriety that ever characterizes old age and Puritanism, has walked directly into an error which it might have avoided if senescence brought wisdom.

During this period, the Companies have had some very heavy payments to make for the construction of their respective routes and for cars, one of them having paid for these purposes, within the thirty days last past, over \$30,000; and, although, in consequence of this fact, considerably pressed for funds, they are now prepared to pay the per capita tax in full. Repudiation is a matter they have not yet begun to seriously consider, for whenever the enterprise so far fails that they will no longer be able to comply with the restrictions of the ordinance giving them the authority to construct their roads, they will dispose of their stock to those who can make it pay. From the statements above made, however, of this, there seems to be, at present, no danger; and if our neighbors had but exercised a small proportion of a certain Christian virtue called patience, they would not, we are certain, have so obstructed the roads with their verbal bowlders,

of Caudidates for City Officers.

The delegates to the City Universities, of the Democratic party, met yesterday morning at Frankin Hall, on the corner of Sixth and Sycamoré, at the appointed hour. Long before this time, however, those who desired nominations were at the place of meeting, marshaling their friends and presenting their claims to the delegates with as much ferror as if the salvation of the city depended upon the coming election. Sufficient about a gesticulations and stupid gasconadings were made use of to disguist almost any set of delegates, and the manner in which they must have been bored, to judge from appearances, would have driven those who were less enthusiastic from the political areas forever.

The Convention was called to order by

The Convention was called to order by John F. Lynah, and a temporary organization was effected by selecting Washington Cones for Chairman, and R. H. Roner and Charles Cramsey for Secretaries.

After a call of the Wards, the delegates were properly seated, when G. W. Johnson moved that a Committee of one from each Ward be appointed for the purpose of reporting permanent officers and the order of business, which was unanimously carried, and the following Committee appointed:

ZATION. During the absence of the Committee the members occupied themselves in electioneering for their respective favorites. At halfpast ten the Committee returned with the following report, which was unanimously adopted:

President—Jerry Kiersted.

Vice Presidents—W. W. Copes and F. Lyons.

Lyons. Secretaries—R. H. Roner and Charles Cram-

The committee also reported the following order for the nomination of officers: 1, Director of Infirmary; 2, Trustee of Water Works; 3, City Commissioner, 4, Justice of the

Peace.

In regard to rules, the report suggested that the lowest candidate in each ballot be dropped, and that all candidates for nomination be required to take the stand and pledge themselves to support the ticket, whether nominated or not, a majority of the votes cast being accessive to secure a choice. necessary to secure a choice.

DIRECTOR OF INFIRMARY. As soon as the President had taken his seat the Convention proceeded immediately to select a candidate for the office of Director of the City Infirmary, with the following result:

| 1st ballot | 2d ballot | 3d ballot | 3d

CITY COMMISSIONER. For the nomination for the office of City Commissioner a number of candidates were presented, some of whom declined, others were not present to pledge themselves, while one or two had no vouchers. The following ballots were then taken, resulting at the fifth in the nomination of Jerry Kiersted:

BALLOTS: 

Director of the City Infirmary—James Ayres, of the Seventh Ward.

Trustee of the Water Works—Charles Rule, of the Third Ward.

City Commissioner—Jeremiah Kiersted, of the Third Ward. Justice of the Peace—George E. Thielman of the Seventh Ward.

RECEIPTS AT THE MAYOR'S. OFFICE.—From the books in the office of the Mayor we learn that the receipts for licenses during the past week amounted to \$828 99, derived from the week amounted to following sources:

Board of City Improvements.—At the regular semi-weekly meeting of the Board of City Improvements, held yesterday morning, Mr. Gilbert, City Civil Engineer, presented plat and estimate for paving with bowlder stone Avery-street, from Whitewater Canal to Wood-street; also plat and estimate for paving with bowlder stone Thorp-alley, from Vine-street to Racc-street.

The Clerk was instructed to prepare and transmit to the City Council an ordinance to assess a special tax upon the real estate bounding the said improvements.

The following repairs for accepted bowldered streets were ordered: Ninth-street, between Freeman and Carr-streets, for \$50; the crossings at the intersection of Fifth and Smith-streets, for \$15; after which the Board adjourned.

Menter's Band returned to the city last night, and were escorted from the Ohio and Mississippi Railroad Depot by an immense concourse of people, including the Gutbrie Greys and Continentals. Their visit to the Gulf of Mexico and the cities of the South was exceedingly pleasant, and, if we may judge from the encomiums passed upon them by the press of New Orleans, the pleasure was shared by those who heard their music. As we write, it floats upon the atmosphere to our ears, and, as music only can, brings back a thousand visions of beauty, which, but for its magic, would have long since departed forever.

DEMOCRATIC NOMINATIONS IN THE SIXTEENTH WARD.—The Committee appointed for the purpose at the Democratic Primary Meeting in the Sixteenth Ward on Monday, met last night and nominated the following Ward ticket:

City Council—William Craven. School Visitor—William Adams Constable—Samuel McLaughlin.

On motion of Mr. Brown, Saturdays were set apart for the consideration of business relating to the District of Columbia.

On motion of Mr. Salsbury, the resolutions of Mr. Davis, relative to the territories, &c., were taken up, and made the special order for Monday next.

Mr. Doolittle presented a memorial in favor of a Bankrupt Law.

Mr. Johnson, of Tenn., rose to a personal explanation. He had seen in the New York Heralda s report of a speech made by the Senator from New Hampshire, (Mr. Clark,) at Dover, on the 7th inst., in which reference had been made to his State and to himself.

The extract was read by the Clerk, in which it was stated by Mr. Clark that Tennessee had too little industry or enterprise to develope her mines of copper, &c., and further, in a conversation he (Clarke) had had with him (Johnson he had said something relative to the insecurity of slave property at the South, Mr. Johnson asked if this was a correct report.

Mr. Clarke positively declined to give any

Mr. Johnson asked if this was a correct report.

Mr. Clarke positively declined to give any explanation in the Senate.

Mr. Johnson would then assume that the report was correct, and answer it accordingly. If the Senator had made himself familiar with the facts in relation to mining in Tennessee, then he stated what he knew to be untrue, and if he had not made himself conversant with the facts, then he spoke of something he knew nothing about. He then drew a comparison between the relative productiveness of Tennessee and New Hampabire, making deductions favorable to the former. As to the alleged Convention he had never

Mr. Clarke said that when the proper time arrived he would take occasion to state what he did say in his speech, and when he did, he would say nothing in disparagement of Tennessee, nor dispute the fact that she made more horses, asses and mules than New Hampshire.

HOUSE.—The House concurred in the Senate's amendments to the bill for fulfilling the treaty stipulations with the Indians of Oregon and Washington Territories.

Mr. Briggs presented petitions from New York, numerously signed, praying for the passage of a bankrupt law.

The House then proceeded to the consideration of the bill to provide for the safety of passengers in boats propelled in whole or part by steam.

Mr. Washburne, of Ill., urged the importance of the passage of the bill. No remonstrance against it had come from the West, New England, or the South, and there was none from anywhere except particular localities. This bill proposed to subject ferry, tug and freights boats, by a local board of in spectors, bringing them within the provisions of the law of 1852. The propriety of this is obvious, as some most terrible accidents have happened on ferry-boats. The provisions of the same statutes extended to sea-going steamers, limiting the passengers to a reasonable extent, and requiring the vessels to be examined by the local inspectors from time to time, in order that the public may know if they are sea-worthy, or mere worm-eaten, rotten hulks. The bill proposes that no ocean

From Philadelphia.

Philadelphia, March 27.—In the Supreme Court, this morning, Mr. Harding applied for an attachment against those members of the Pittsburg City Council who refused to obey the orders of the Court in reference to the railroad subscriptions. The writ was made returnable on the first Tuesday after the first Monday in May.

The Express train from Pittsburg last night met with an accident when approaching this city. The axle of the tender broke, throwing a portion of the train off the track. The baggage car caught fire, and the flames extended to the Express and Smoking car, all of which were burnt. The mails and nearly all the baggage and express articles were saved. Nobody was injured.

A young negro named Joseph Horner was brough there last night from Harrisburg, on the charge of being a fugitive-slave. He is claimed by Charles F. Butler, of Virginia. The case was before the United States District Court this morning, but at the request of the fugitive's counsel it was postponed until this afternoon. Considerable excitement exists among the Abolitionists in regard to the matter.

### FURTHER DETAILS BY THE BOHEMIAN

PORTLAND MAINE, March 31.—The ship Geroline was a total wreck near Teigmouth.
Lord Eigin had gone to Paris on public business in connection with his mission to China. He was expected to start for China in about a fortnight.

A report was current that Lord Taunton, (formerly Mr. Labourchere) would probably succeed Lord Eigin as Postmaster-General.

France,—The Paris Siec's had received a warning for an alleged outrage against religion. The Siec's praised and indorsed a work in which certain dogmas of the Catholic or Jewish creeds were set down as sham. The reply of the Holy See to the last proposals of France had reached Paris. The Pope declines the proposition to confine within an exclusive political compass a question which, as it concerns the integrity of the partimony of St. Peter, is intimately bound up with the independence of the Church.

Although decidedly rejecting the proposition to create a vicarate of the Romagna in favor of a foreign sovereign, his Holiness shows himself disposed to enter into the path of reform, on condition that the integrity of the States of the Church is guaranteed.

A Paris correspondent asserts that the foreign relations of France were silently undergoing a great change, and that Austrian influences were in the ascendant.

The Paris Flour market had been dull, but closed firmer. Wheat also dull, but prices not materially lower. The Bourse had been pretty steady, but on the 18th closed heavily at 67t. 85c, per rentee.

Proclamations by the Governor of Savoy were posted up in all the parishes in that country, notifying that the inhabitants will soon be called upon to vote upon the question of the maintenance of the union with Sardinia or annexation to France, according to the form prescribed by Parliament.

The London Telegraph positively affirms that a confidential request had been made to England to join with Prussia and Russia in protesting against the alienation of Savoy from Sardinia. It is stated that England supports the demand of Sardinia to ascertain the wishes of the people of Savoy and Nice by universal suffrage.

M. Thouvenal's reply to Count Cavour's dispatches, of the 1st and 3d of March, had reached Turin. Thouvenal points out the essential difference which exists between the question of the annexation of Tuscany to Piedmont, and that of Savoy to France, and says that the principal difficulty which appears, the first is to obtain its recognition by Europe, which has guaranteed the possession of Tuscany to the dynasty of Lorraine. In the latter, this difficulty appears in the presence of the arrangements between France and Sardinia, relative to the Emperor requests the modern of Savoy.

As regards the annexation of Tuscany, he repeats, that France could not follow Piedmont in such a perilous course, and that if Victor Emmanual accepted the annexation of Tuscany he would necessarily remain exposed to the risks of such a policy, without being able to reckon on the support of France.

The Paris correspondent of the Times gives a report that Bulls of excommunication against Victor Emmanual were ready to be launched from Rome, the moment the election in the Central Italian States was decided. The latest voting on the question of annexation to Sardinia took place on the 11th and 12th in the various States. Immense numbers of people assembled in all the towns, and much enthusiasm and confidence was evinced and admirable order was maintained. The following are the first dispatches as to the result:

The French army of Rome has been increased to 20,000 men.

Austria.—It is stated that Austria, while declaring her intention to remain neutral in regard to the Savoy question, had assured Prussia that in the event of the Rhine frontiers ever being menaced, she would immediately unite with Prussia for the protection of the integrity of the German territory.

Thirty Mexicans Taken Prisoners.

New Orleans, March 27.—Advices from Brownsville to the 23d inst., furnish the following important intelligence:

On the 16th inst., two companies of rangers under the command of Capt Ford, and two companies of United Stales Cavalry, under Capt. Stoneman, crossed the Rio Grande into Mexico in search of Cortinas, who had returned to the frontier. The troops approached the Mexican encampment at night, drove in the pickets and took thirty prisoners, who claimed that they belonged to a large body of National Guards also in search of Cortinas.

The next morning a large Mexican force appeared and claimed the prisoners as a part of their guard. It was afterward ascertained that these forces had been watching the movements of the Americans, and that Cortinas was with them and had escaped at the first alarm. Our troops remain encamped on
